During 1Q 2010, additional trade finance of US\$75 million was drawn down to fund the higher inventories as disclosed in Note 1. Note 5 - Key Ratios

	Gro	Group		
	31-Mar-10	31-Dec-09		
Current Ratio	1.26	1.19		
Average Inventory Days	116	95		
Average Receivable Days	35	33		
Net Debt to Equity	2.35	2.02		
Adjusted Net Debt to Equity*	0.62	0.70		

^{*} Note: The Adjusted Net Debt to Equity Ratio is adjusted for banking facilities (excluding Trade Finance & MTN) which are used to finance cocoa beans/raw materials inventories.

The increase in Average Inventory Days was mainly attributable to the higher cocoa bean prices which translated to a higher value of cocoa inventories held; and timing of deliveries of some contracted sales. The Average Receivable Days edged up due to the different trading terms for our Europe cocoa ingredients operations.

	1Q 2010	1Q 2009	% change
	(US\$ Million)	(US\$ Million)	Year on Year

In 1Q 2010, the Branded Consumer Division's strong performance was driven by higher sales growth for Own Brands and 3rd Party Brands and on the back of the higher margins achieved. Note that adjusted for the stronger regional currencies in 1Q 2010, the Branded Consumer Division's revenue growth was 17.9% Y-o-Y.

Revenue Performance by Markets

Indonesia

For Own Brands in 1Q 2010, our key brands (eg. *SilverQueen, Cha Cha* and *Ceres Meises*) continued to generate strong double digit revenue growth as a result of our marketing initiatives and new products launched over the last 15 months. For 3rd Party Brands sales in Indonesia, the strong double digit revenue growth achieved was driven by organic growth for the existing agencies.

The Regional Markets of the Philippines, Malaysia and Singapore

The regional markets formed 30.3% of the Division's 1Q 2010 revenue and achieved revenue growth of 30.3% Y-o-Y reflecting the success of the Division's strategy of growing Own Brands and 3rd Party Brands distribution in the regional markets. For Own Brands, the revenue growth achieved was on the back of the successful launch of new products and our success in gaining greater penetration into the different channels and regions. For 3rd Party Brands distribution in our regional markets, the strong revenue growth was on the back of not only new agencies secured but also from growth in existing agencies.

Profit Performance

The EBITDA growth of 46.7% Y-o-Y achieved was driven primarily by the revenue growth of Own Brands and 3rd Party Brands. In addition, in the period under review, the Branded Consumer Division's 1Q 2010 gross profit margin was higher by 1.7 percentage point over 1Q 2009. This margin improvement was driven mainly by higher Own Brands margin as a result of the price increase implemented in January 2010 and cost containment initiatives.

Cocoa Ingredients Division

Key Financial Highlights for (1Q 2010 vs 1Q 2009)

	1Q 2010		1Q 2009		YoY Change	
	Division	Asia & LA	Division	Asia & LA	Division	Asia & LA
Revenue	251.5	153.1	217.8	144.0	+ 15.5%	+ 6.3%
EBITDA	11.1	10.0	5.3	7.7	+ 108.3%	+ 28.9%
EBITDA/mt (6 months moving average) in US\$	156	253	107	189	+ 45.8%	+ 33.9%
Sales volume (mt)	61,941	39,225	52,770	41,905	+ 17.4%	- 6.4%

For Cocoa Ingredients (Asia & Latin America), the strong EBITDA growth of 28.9% Y-o-Y was principally driven by the higher EBITDA yield of US\$253/mt compared to 1Q 2009's US\$189/mt. This higher EBITDA yield reflected higher shipment of premium products and higher pricing achieved for our premium cocoa ingredients.

With our European operations now in full commercial operations, a positive EBITDA yield was generated in 1Q 2010. To recap, our state-of-the-art cocoa ingredients processing facility in Hamburg commenced commercial production in May 2009 and we began ramping up production. During this period, we have already received quality accreditations (which are a necessary precursor to selling meaningful quantities of customized higher margin products) from some of our major customers and we are working to secure more customer approvals.

Financial strategies to minimize risks for the Group

The Group's prudent risk management strategy resulted in the following achieved in 1Q 2010:

- 1. Reduced reliance on short term borrowings to fund working capital requirements The percentage of short term borrowing to total borrowings is currently at 62.8%;
- 2. Re-balanced debt portfolio to reduce exposure to credit refinancing risk with only US\$26 million due for repayment in 2010; and
- Secured additional facilities increasing financing headroom to US\$181 million.

The Group will continue to tightly manage its risks. The table below illustrates the identified risks for the Group but more significantly, what we believe to be the mitigating factors and preventive actions.

Financial Risk Management Strategy

Liquidity Risk	 Reduced exposure to liquidity or refinancing risk Of total loans, only 5% is due for repayment in 2010. This can be refinanced through internal cash flows Of the working capital facilities, no significant amount is due for renewal Preventive action already taken: Pursue alternative sources of finance in the debt capital market to further reduce reliance on short term working capital facilities; and Continued application of the Group's financing strategy which includes extending the debt maturity profile to match the financing and investment needs of the business
Credit Financing (Bank Exposure Risk)	 ■ Diversified sources of credit - The Group has more than 10 banks on the panel ■ In compliance with all debt covenants ■ Our Trade Finance facilities are used in the significant value add process of transforming cocoa beans to customized cocoa ingredients - favoured by financial institutions as these facilities are used to fund highly liquid and hedged assets; backed by committed sales contracts ■ Credit headroom of US\$181 million or 26% of available credit lines ■ Preventive action already taken: ✓ Exploring means of increasing credit headroom for contingencies. For example, working with several existing and new financial institutions to participate in our working capital financing
Cash Flow Risk	 Core businesses generating strong operating cash flow Action taken to further strengthen the Group's cash flow generation: Improve working capital cycle through tighter working capital management; and Deferring any capital expenditure that is not immediately income generating.
Counterparty Risk	 Source cocoa beans through multiple suppliers to minimize supply risk In the event of any potential supply interruption from one of our suppliers, this risk can be effectively managed through our other suppliers Minimal exposure to our cocoa bean suppliers and trading houses if all committed positions were to be liquidated There have been no counterparty defaults to-date and we continue to monitor and minimize these risks Preventive action already taken: ✓ Tightened credit checks and controls on receivables collection to minimize our exposure and maximize collections
Foreign Currency Risk	 Minimize risk through matching borrowings with functional currency revenue For Cocoa Ingredients (Asia & Latin America) - USD revenue matches USD borrowings For Cocoa Ingredients (Europe) - Euro revenue matches Euro borrowings For Branded Consumer - Local currency revenue (e.g. Rupiah) matches local currency borrowings (eg. Rupiah) For the Indonesian operations, the impact of currency movement on raw material purchases is managed through price increases and cost reductions

Operating Expenses

The Group's 1Q 2010 Selling & Distribution and General & Administration Expenses were higher Y-o-Y by US\$5.7 million and US\$1.8 million respectively. The increase in these expenses can be attributed to:

- 1. Higher logistics costs incurred by both divisions in line with the sales growth achieved;
- 2. Higher advertising and promotion spent to further strengthen our chocolate confectionery brands and to expand our product ranges/categories;
- 3. Increased staff cost to support the higher sales volume, new product launches (Own Brands and 3rd Party agencies) and a strong sales and distribution platform; and
- 4. Increased pension provision based on recent actuarial valuation.

Finance Cost

The Group's 1Q 2010 finance cost was higher Y-o-Y by US\$1.6 million due to funding of higher cocoa inventories.

Review of Financial Position and Cash Flow

Balance Sheet as at	31-Mar-10	31-Dec-09	Change	
	<u>US\$'000</u>	<u>US\$'000</u>	<u>US\$'000</u>	
Total Assets	904,179	861,545	42,634	
Current assets	599,554	548,997	50,557	
Non current assets	304,625	312,548	(7,923)	
Total Borrowings	512,830	462,307	50,523	
Shareholders' Equity	210,409	207,693	2,716	
Net Working Capital	123,970	89,290	34,680	

Shareholders' equity rose by US\$2.7million to US\$210.4 million mainly due to higher net profit generated. Total assets were higher by US\$42.6 million which is in line with the growth of the business and higher inventories value as a result of increased bean prices.

The higher working capital needs (mainly cocoa inventories) was funded mainly by operating cash flow, trade finance and short term advances. This higher borrowings translated to net debt to equity of 2.35x (up from 2.02x at 31 December 2009). More significantly, excluding the funding for cocoa bean inventories, the adjusted net debt to equity improved to 0.62x (end-2009: 0.70x).

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group's 1Q 2010 results are in line with the commentary made in Paragraph 10 of the Group's 4Q 2009 and full year ended 31 December 2009 Unaudited Financial Statement and Dividend Announcement in February 2010.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

With the strong momentum for the Group's two businesses, we expect both volume growth and margin expansion to continue across all our business units and hence, strong earnings growth to be generated for FY 2010.

For the Cocoa Ingredients Division, the positive momentum should continue on the back of strong industry fundamentals driven by the industry consolidation and the outsourcing trend. For our Asia & Latin America Cocoa Ingredients business, strong demand and higher pricing for our customized cocoa ingredients should see EBITDA/mt sustained above the US\$200/mt level. While for our European Cocoa Ingredients business, a better performance is expected with the Hamburg facility in full commercial operations - production is at full capacity while our customer base continues to grow as more quality accreditations are secured from customers.

For Branded Consumer Division, the strong sales momentum for our Own Brands and the 3rd Party Brands generated in 1Q 2010 is expected to continue for the rest of FY 2010. For Own Brands, the strong sales momentum will be further driven by our pipeline of new product launches planned in 2010.

During FY 2009, the Indonesian Director General of Taxation (DGT) imposed an additional tax assessment amounting to IDR 71.9 billion (approximately US\$7.6 million) on PT General Food Industries (GFI), a wholly owned Indonesian subsidiary of Petra Foods Limited (PFL), pertaining to the issue of transfer pricing.

GFI is contesting this additional tax assessment on the grounds that the transfer pricing between GFI and PFL is done at arm's length based on the methods prescribed in the OECD Transfer Pricing Guidelines.

GFI has been advised by its Indonesian tax advisers that there are valid grounds to contest the additional tax assessment by DGT. Accordingly, GFI has filed an appeal with the Indonesian Tax Court (Tax Court) against this additional assessment and has not made any provision in its accounts with respect to this additional tax liability. The proceedings started in early February 2010 and at this juncture, it is too preliminary to provide an assessment of the outcome.
